TERMS OF SALE

These terms of sale are designed to conform to the Amended Rules for Public Auction Sales in New York City by the Department of Consumer Affairs and the Bylaws of the Professional Numismatists Guild, Inc.

1. This public auction sale is conducted pursuant to these Terms of Sale by licensed and bonded auctioneers, Harvey G. Stack, #0522763 and Lawrence R. Stack, #0798114.
2. **Each bidder, by bidding in the sale, agrees that a 10% BUYER'S CHARGE will be added to the "hammer price" or winning bid of each lot as determined by the auctioneer.** This 10% BUYER'S FEE will be added to the invoice of each successful bidder over and above the actual sum bid or offered. The Buyer's Fee applies regardless of a bidder's affiliation with any group or organization, and is imposed on all bidders. No lots will be delivered or shown at the auction. Auction sales are strictly for cash and must be paid for promptly in U.S. funds. STACK'S reminds you that all bidders personally guarantee prompt payment in full. Checks are permitted with identification acceptable to STACK'S. On any accounts past due, STACK'S reserves the right to extend credit and impose periodic charges as stated in these Terms of Sale or on the invoice or statement. Buyer agrees to pay the reasonable attorney fees and costs required to collect on such past due accounts. All lots delivered in New York State are subject to applicable Sales Tax. Buyer agrees to pay any sales tax, use tax, and any other applicable taxes that now, or hereafter, are found to be due by virtue of the sale, and to indemnify and hold STACK'S harmless for any sales or other taxes due thereunder, including reasonable attorneys fees, costs and any interest or penalties assessed. Buyer shall also pay all shipping and handling charges where applicable.
3. Purchasers claiming exemption from such taxes must submit resale or exemption certificates or other proof of exemption. Out-of-state Purchasers taking delivery in New York must provide an OSR certificate or pay applicable taxes due. All purchasers represents that they are not seeking to acquire goods for personal, family, or household purposes, but are bidding for resale purposes; and those submitting OSR's additionally represent that they are professionals, knowledgeable and fully aware of what they are purchasing, a representation upon which STACK'S relies in agreeing to sell to Purchaser. Buyers picking up lots may be required to confirm this agreement in a separate writing.
4. STACK'S is not responsible for your errors in bidding. PLEASE BID ON THE CORRECT LOT.
5. All persons seeking to bid, whether in person, by an agent or employee, or by mail, must have a catalogue and register to bid. By submitting a bid, whether in person, by mail, or through an employee or agent, the bidder acknowledges receipt of the catalogue, and agrees to adhere to these terms of sale. The auctioneer may decline to recognize any bidder who does not have a catalogue and has not registered and been given a paddle number. Any prospective bidder may be required to establish credit references or submit a deposit of 25% of their bids. All new bidders should be prepared to establish credit with the auctioneer prior to registering to bid.
6. By bidding, purchasing or offering to purchase in this sale, even if as an agent, or on behalf of a corporation or for another individual, each bidder personally guarantees prompt payment and agrees to be personally liable for the consequences of bidding; all bidders also personally guarantee prompt payment in full, including without limitation, BUYER'S FEE, taxes, surcharges, postage, handling charges, storage costs and insurance charges.
7. STACK'S reserves the right to require payment in full before delivering lots to a successful bidder, and reserves the right to require the principals, and directors of any corporate bidder to execute a guarantee of payment (which, in any event they do by having an agent or employee bid in the sale) prior to allowing a bid to be placed or recognized.
8. STACK'S reserves the right to impose a late charge, based solely upon Purchaser's failure to remit full and timely payment, and which late charge is not related to any necessary storage of the material purchased. Said late charge is calculated at a rate of 1½% per month (18% per annum), based on the purchase price if payment has not been made in accordance with these Terms and Conditions of Sale. Purchases not collected within thirty (30) days of the date of sale may, at the sole option of STACK'S, be resold for Purchaser's account by STACK'S, with Purchaser liable for any deficit after STACK'S receives a commission for the same in accordance with its agreement, and thereafter deducts all expenses associated with the sale including reasonable attorneys fees.
9. Bids are NOT accepted from minors. By bidding in this sale, the bidder represents and certifies that they are of legal age, are authorized to make the bid that they make, and that the purchase is not a consumer sale or consumer credit transaction.
10. **Title remains with STACK'S until paid for in full.** Should Purchaser take any action under Title 11 of the U.S. Code, or any state insolvency law, Buyer agrees to promptly return to STACK'S, any lots not paid for. The Buyer agrees to keep the lots fully insured until paid for. Risk of loss is on the Buyer.
11. The highest bidder as determined in the sole discretion of the auctioneer shall be the Buyer. If the auctioneer determines that a dispute has arisen between two or more bidders, the lot may be immediately put up and sold again. Bidders with whom the dispute previously arose shall be without further recourse for any damages whatsoever.
12. If you bid by mail, **mail your bid sheet early.** Mail bidders agree to and are subject to these terms of sale just as if they were floor bidders.
13. The auctioneer reserves the right to refuse ridiculously low bids, which in the auctioneer's sole discretion, are felt not to have been made in good faith. The auctioneer reserves the right to open the lot at a reasonable price determined solely by the auctioneer. The auctioneer shall also have sole discretion to set initial, and subsequent bidding increments, and to accept, or to decline to accept, challenges to those bidding increments. All bids not in whole dollar amounts may be rounded downward by the auctioneer. The auctioneer may open bidding on any lot by placing a bid on behalf of the Seller, a mail bidder, STACK'S, or another participant in the sale. The auctioneer may bid further on behalf of the Seller up to the amount of the reserve by placing successive or consecutive bids for a lot, or by placing bids in response to other bidders. The auctioneer may bid for his, or its, own account at any auction and may have access to information concerning the lots, and items contained in them, that are not otherwise available to the public. Estimates given are for the general guidance of the bidder and represent the opinion of the auctioneer as to the fair market value of the numismatic item at the time of cataloguing, based on experience and comparable sale, if applicable. The actual price realized may be higher, or lower than the estimate. If a lot is reserved, the reserve may not exceed the maximum estimated price.
14. Auction sales are not approval sales. In the event of non-payment by the Buyer, STACK'S reserves any and all rights that it would be entitled to under the Uniform Commercial Code, including Buyer's consent to file a financing statement without need of Buyer's signature, and to offset any sums due on any future consignment or purchase or monies or goods in possession of STACK'S or its assigns.

15. All bidders are encouraged to carefully examine all lots prior to the sale. No lots will be shown at the sale. STACK'S assumes no risk, liability or responsibility for the material (or other) facts stated concerning the numismatic item, except as specified herein. All floor buyers should acquaint themselves with the property sold since STACK'S will assume that they have done so and requires that the Purchaser represent that they have. Bidders are deemed to have satisfied themselves as to all of the matters set forth in the terms of sale.

16. STACK'S, as agent, offers a LIMITED WARRANTY that any numismatic item sold is authentic (i.e., not counterfeit, that its date or mintmark has not been altered, and that the coin has not been repaired as those terms are used in the trade.). Except as set forth in this limited warranty and as may be required by the arts and cultural affairs law, and any other law or regulation, all other warranties of authenticity of authorship, whether express or implied, are hereby disclaimed.

17. Except as otherwise stated herein, all items offered in this catalogue are GUARANTEED TO BE GENUINE and correctly attributed as defined below.

18. (a) NO LOT may be returned for any reason whatsoever without the prior written consent by STACK'S, or, in any event, if it has been removed from its original container. **No lots purchased by those who have viewed the lots may be returned,** unless the limited warranty provided in these terms of sale permits it.
(b) Grading is a subjective description in the opinion of the cataloguer as to the state of preservation, method of strike, and overall appearance of a particular coin or lot. The term "proof" or "specimen" is used to describe a method of manufacture, and is not a grade or condition or an attribution.
(c) STACK'S does not represent that a numismatic item has or has not been cleaned; that any toning is natural or artificial; that any coin catalogued will meet the standards, or the grade, of any third party or third party grading service; that a numismatic item has a particular provenance or pedigree; that a numismatic item is struck or not struck, or produced or not produced in a particular manner or style.
(d) Adjectival descriptions and terminology (which can and does vary among experts and knowledgeable purchasers), when utilized in the catalogue, are strictly the opinion of the cataloguer and shall not be deemed to be part of the description; i.e. it is an opinion only and not a warranty of any kind.
(e) Grading descriptions in this catalogue are provided strictly for the convenience of those who bid by mail and who are unable to personally view the coins, and represents the cataloguer's opinion of its state of preservation. Those attending the sale, and those bidders who actually view the lots should draw their own conclusions as to the state of preservation or grade of the numismatic item.
(f) STACK'S may utilize numerical or adjectival descriptions, and may include lots that have been graded by others. Opinions offered with respect to numismatic properties offered for sale by STACK'S are made at the time that the numismatic item is catalogued, and do not refer to any prior or subsequent time.
(g) Where STACK'S sells a numismatic item graded and encapsulated by a grading service, Buyer acknowledges and agrees that other grading services, STACK'S or knowledgeable purchasers might reach a different conclusion as to the state of preservation of a particular item, and that STACK'S has presented the service's description of the encapsulated item for accommodation only. Any such information provided by STACK'S is the opinion of the third party, without recourse against STACK'S in any way whatsoever.
(h) **Except as otherwise expressly stated in the Terms of Sale, STACK'S and its agents and employees make no warranties or guaranties or representations, and expressly disclaim all warranties and guaranties and representations, including, without limitation, a warranty of merchantability, in connection with any numismatic properties sold by STACK'S.**
(i) All oral and written statements made by STACK'S, are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of STACK'S has authority to vary or alter these Terms of Sale. Any alteration shall be effective only if in writing and signed by a principal of the firm.
(j) If not so stated expressly, the grade, artisanship, provenance, or attribution is the firm's opinion only on which no third party, including the bidder, is entitled to rely
(k) STACK'S assumes no risk, liability or responsibility for the material (or other) facts stated concerning the numismatic item, except as specified herein.

19. Unless otherwise stated, STACK'S acts only as agent for a Consignor and makes no independent warranty of title. STACK'S offers the following LIMITED WARRANTY to Buyers with respect to all numismatic items offered for sale. STACK'S warrants to all Buyers that the Consignor or the Seller has warranted good title to property offered for sale. Any such warranty is predicated on the Owner or prior owner making the same warranty to STACK'S, upon which the firm relies. In the event that it is finally determined that the Purchaser has not acquired transferable title, STACK'S shall reimburse the Purchaser (if full payment has already been made) in accordance with these Terms of Sale, and Buyer agrees that this is full compensation for any loss whatsoever, whether actual or otherwise. Tender of the check by STACK'S to Buyer at the address specified on the bid sheet or registration form shall end the obligation of STACK'S to the Buyer, even if the check is not indorsed or cashed. STACK'S and the Consignor make no representations or warranty that the Purchaser acquires any reproduction rights or copyright in property purchased at the sale.

20. STACK'S further expressly disclaims all warranties relating to the grade, condition, identification of the periods or date of coining or manufacture or methods of manufacture of property which is inaccurate, or may be proved inaccurate, by means of scientific process or research which is not generally accepted for use until after the sale.

21. STACK'S reminds the Buyer that the grading or condition of rare coins may have a material effect on the value of the items purchased; that others may differ with the grading opinions or interpretations of STACK'S; that such difference of opinion (including whether the coin has been cleaned, or is or is not of a particular grade or quality) is not grounds to return an item purchased; and that all sales of items viewed by a Purchaser in advance of a sale, even if the sale is by mail, are final.

22. By purchasing in this sale, Buyer agrees that they shall have no recourse against the Consignor for any reason whatsoever. In the event that a warranty is offered with respect to grade or state of preservation or condition, it shall be a specific warranty, in writing, signed by a principal of STACK'S, and shall specify its terms and conditions and duration. If any numismatic item is damaged in its removal from encapsulation, or during its encapsulation, it is at the sole risk of the Purchaser. Because of the fungibility of numismatic items, any item removed from its holder may not be returned for any reason whatsoever.

23. (a) On any claim made by a bidder, STACK'S must be advised in writing sent within seven days after receipt of the material, or the date of the sale, whichever is the later; these dates apply whether or not the Buyer has received

the material. The disputed property must be returned to STACK'S in the same condition as sold by STACK'S, in the same holder.

(b) These conditions are binding and absolute unless varied in writing by a principal of STACK'S or if the bylaws, rules or regulations of the Professional Numismatists Guild, Inc., provide for a longer period, or give the Buyer a greater right, in which case such bylaws, rules or regulations shall prevail. Any and all claims of the Buyer made in violation of the Terms of Sale shall be deemed waived, and the Buyer shall be without further recourse.

24. If STACK'S, in its sole discretion, determines that any numismatic property is substantially and materially different from that represented in the catalogue of sale, or in any written advertisement or material, the sale shall be cancelled and STACK'S shall refund the purchase price to the Buyer. Unless provided otherwise in these terms or the PNG bylaws, that shall be STACK'S sole obligation to Buyer.

25. The auctioneer and cataloguer, STACK'S, reserves the right to include its own material in any auction sale. The auctioneer may have direct or indirect interests in these, and other items (other than its commission), and may collect a minimum price in addition to the selling commission. This paragraph shall be deemed a part of the description of all lots contained in the catalogue. The catalogue shall also be deemed a part of any invoice issued by the auctioneer. The auctioneer may make loans or advances to consignors and/or prospective purchasers. The Consignor may be permitted to bid on his, her or their own articles and to buy them back at the sale. Any Buyer who bids on or purchases their own goods is required to pay for them, in full, as the terms of sale provide for together with the full buyer's commission, and any other applicable surcharges, postage, handling, insurance fees and taxes, without rebate of any kind whatsoever, unless provided for otherwise by contract with the auctioneer. The auctioneer reserves the right to make accounting adjustments in lieu of payment. Settlement will follow the auction. The prices realized reflect the final price called by the auctioneer and may include a bid of a consignor reacquiring their lot.

26. STACK'S, the auctioneer, and employees are "insiders" and may have access to confidential information not otherwise available to the public with respect to value, provenance, availability, and other factors. Purchasers should make themselves acquainted with the numismatic items that they are purchasing and avail themselves of the services of outside consultants prior to engaging in any purchase. Bids are so much per LOT. No lots will be broken up unless otherwise stated.

27. No bidder shall have any claim against the auctioneer, or STACK'S, for improper sequence of offering a lot.

28. On bullion items, bullion-like items, and encapsulated items graded by a grading service, Buyer agrees that there shall be no right of return for any reason whatsoever. Buyer further agrees that due to market volatility, in event of non-payment, STACK'S shall be entitled to damages that are the greater of selling price or market, together with any supplementary or additional costs.

29. STACK'S at any time may rescind the sale in the event of non-payment or breach of the warranty of title.

30. The sole remedy that any participant in the auction shall have, whether bidding in person, by mail, or through an employee or agent, for any claim or controversy arising out of the auction shall be a refund of the original purchase price and premium paid, if any. Interest shall be paid by STACK'S at a rate of no greater than nine per cent (9%) per annum, up to a maximum of six (6) years, unless the rules of the Professional Numismatists Guild, Inc. provide for a higher rate of interest or a longer period of time, in which case such rules shall prevail. A lower rate, or shorter period, may be decided by the arbitrators. Upon payment as determined by the arbitrators, or in full at the maximum rates set forth above, or at an agreed rate, STACK'S shall be deemed released from any and all claims of the bidder arising out of or in connection with the sale of such property. Purchaser agrees to execute prior to delivery of any refund any documents reasonably requested to effect the intent of this paragraph. By bidding in this sale, all bidders consent to these terms and all other terms of these conditions of sale.

31. **STACK'S hereby disclaims all liability for damages, incidental, consequential or otherwise, arising out of or in connection with the sale of any property by STACK'S to Purchaser.** All bidders, even if unsuccessful purchasers, agree to abide by this condition, and all other conditions of sale.

32. All rights granted to the Purchaser under the within terms of sale are personal to the Purchaser. Purchaser may not assign or transfer any of these rights to any other person or entity, whether by operation of law or otherwise. Any attempt so to assign or transfer any such rights shall be absolutely VOID and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Sale and terms of warranty on any bidder or Purchaser.

33. "Purchaser" shall mean the original purchaser of the property from STACK'S and not any subsequent owner or other person who may have or acquire an interest therein. If Purchaser is an agent, the agency must be disclosed at the time of sale, otherwise the benefits of the warranty shall be limited to the agent and not transferable to the undisclosed principal.

34. Should any third party attempt to utilize any warranties contained herein, they shall first give STACK'S thirty (30) days written notice by Registered Mail or Certified Mail Return Receipt Requested during which time STACK'S may, should it choose to contest the third party's claim, ask the Professional Numismatists Guild, Inc., or the American Arbitration Association to appoint a panel of three arbitrators skilled in the field to make such a determination at New York, N.Y. By seeking to use such remedy, the third party unequivocally and without reservation consents to binding arbitration, and its conclusive and binding determination of any alleged damages as a sole remedy. With respect to any other pertinent notice requirements, venue and personal and subject matter jurisdiction, said third party is bound to the provisions pertaining to bidders, buyers and purchasers, as otherwise provided for in these Terms of Sale.

35. In the event STACK'S shall, for any reason, be unable to deliver the property sought to be purchased, its liability therefore shall be limited to the rescission of the sale and refund of the purchase price and buyer's premium. **STACK'S hereby disclaims all liability for damages, incidental, consequential or otherwise, arising out of its failure to deliver any property purchased, and all bidders agree to this disclaimer.**

36. If it is determined that a bailment relationship exists while the material purchased is being held by STACK'S, for Purchaser, said relationship constitutes a gratuitous bailment only, solely for the benefit of the purchaser/bailor, as defined by the laws of the State of New York.

37. As a condition of bidding, bidder acknowledges that numismatic auction sales are unique in terms of their tradition and industry practices. Each bidder agrees that **any claim or controversy whatsoever arising out of this sale shall be settled as follows:** if demanded by either buyer, or STACK'S by binding arbitration at New York, New York, under the rules then obtaining of the Professional Numismatists Guild, Inc., or as PNG rules may provide, the American Arbitration Association. In the event that a dispute arises between STACK'S and a non-member of the PNG,

this means that the American Arbitration Association, at New York, N.Y., shall have exclusive jurisdiction over the controversy. In any controversy concerning non-payment, STACK'S shall have the right to proceed by arbitration or by a proceeding in any court of competent jurisdiction in the City, County, and State of New York, whichever is first commenced by STACK'S. The arbitrator shall not have the power to alter the terms of condition of sale. Judgment on any award may be entered in any court of competent jurisdiction. The arbitrators, and any court, shall award the prevailing party costs and reasonable attorney fees. By bidding in this sale you agree to be bound by the arbitration provisions of the PNG as described above. Commencement of an arbitral proceeding, or confirmation of an award, as well as any notice requirements connected with such proceeding, and any other required service of process, may be made by STACK'S upon all bidders by registered or certified mail directed to the address of the bidder or purchaser as listed on the bid sheet or application or form required at the time that a bidder number is issued, or by facsimile transmission with proof of receipt. Bidder agrees that such service shall constitute full in personam jurisdiction. The venue for such proceedings shall be the City of New York, State of New York and each bidder agrees to in personam (personal) jurisdiction of the City of New York, State of New York. In all cases, the maximum liability of STACK'S for any item sold shall be limited to the official price of record of the item at this sale, without provision for consequential damages, or any other damages of any kind whatsoever, unless the PNG rules provide otherwise.

38. If the Purchaser fails to comply with one or more of these Terms and Conditions of Sale then, in addition to all other remedies which it may have at law or in equity, STACK'S may, at its sole option, either (a) cancel the sale, retaining as liquidated damages all payments made by the Purchaser, it being recognized that actual damages may be speculative or difficult to compute, or (b) sell some or all of the numismatic property and some or all other property of the Purchaser held by STACK'S, in a quantity sufficient in the opinion of STACK'S to satisfy the indebtedness, plus all accrued charges. More than one such sale may take place at the option of STACK'S. Such sale may take place without notice to Purchaser; if STACK'S gives notice, it shall be by regular mail to the address utilized on the bid sheet, consignment agreement or other address known to the firm. Such sale will be at STACK'S standard commission rates at public or private sale, within or without the City of New York, at which time (if the sale be at auction) the defaulting party shall not bid. The proceeds shall be applied first to the satisfaction of any damages occasioned by Purchaser's breach, and then to the payment of any other indebtedness owing to STACK'S, including without limitation, commissions, handling charges, the expenses of both sales, reasonable legal fees and collection agency fees and any other costs or expenses incurred hereunder. If a lot or numismatic item is not paid for, and is sold by STACK'S for Purchaser's account, in accordance with the Uniform Commercial Code, STACK'S shall not be required to account to the Purchaser for any excess proceeds. Purchaser is also liable to STACK'S if the proceeds of such sale or sales is insufficient in the opinion of STACK'S to cover the indebtedness. If other property of Purchaser is also sold, any excess of proceeds will be remitted to the Purchaser after first deducting the expenses set forth above. If Purchaser fails to remit sums due to STACK'S, Purchaser grants to STACK'S a lien with respect to such sum, with interest to accrue thereon at the judgment rate, until actually paid, which lien shall apply against any property of Purchaser, including any future goods of Purchaser coming into possession of STACK'S. **Purchaser hereby waives all the requirements of notice, advertisement and disposition of proceeds required by law, including those set forth in New York lien law, article 9, sections 200-204 inclusive, or any successor statute, with respect to any sale.** Purchaser waives a right to redeem.
39. The auctioneer reserves the right to postpone the sale by auction for a reasonable period of time as a result of any significant event which, in the sole discretion of the auctioneer, makes it advisable to postpone the event. No bidder or prospective bidder or purchaser or prospective purchaser shall have recourse as a result of any postponement. In any event, no person may bid without registering, and ALL REGISTERED BIDDERS including mail bidders and agents by registering or bidding **agree to all of the above Terms and Conditions of Sale.**
40. By bidding or offering to bid, bidders acknowledge that they have read all of the Terms and Conditions of Sale and warranty contained herein and that they accept these terms and conditions without reservation. STACK'S reserves the right to vary the Terms and Conditions of Sale by rider or other means communicated to bidders. By purchasing from STACK'S, whether present in person, or by agent, by written bid, telephone or any other means, the bidder agrees to be bound by these Terms and Conditions of Sale.

STACK'S GRADING POLICY

For Mint State or Uncirculated coins

Stack's believes that adjectival grading is the best way to describe a coin. However, as numerical grading has become part of the grading vocabulary, Stack's wishes to define the adjectival and numerical grading as Stack's interprets it in this catalogue. Others may differ from this interpretation. See our Terms of Sale above for a full explanation.

Comparative Grading Language

Brilliant Uncirculated is at least MS-60 and means that it is probable that the coin has not entered general circulation; the coin may have heavy contact marks, noticeable hairlines and have original luster (or be impaired). It is the lowest state of preservation of uncirculated coins. Choice Brilliant Uncirculated is at least MS-63, which means that it has more attractive eye appeal than an MS-60, may have original or slightly impaired luster, may have a few scattered hairlines or even a small patch of hairlines; and may have some distracting contact marks in the field or design. Gem Brilliant Uncirculated is at least MS-65 and has very pleasing eye appeal (more so than an MS-63) and full lustre. It may have a few scattered hairlines and may also have a minimal number of contact marks. Scuff marks may show. STACK'S does not represent that a numismatic item has or has not been cleaned; that any toning is natural or artificial; that any coin catalogued will meet the standards, or the grade, of any third party or third party grading service. It should be understood by all that grading is a subjective art and that others may differ from these interpretations.

Lot No. 1006
(Enlarged)

1006 **1793 Wreath Reverse.** Sheldon 9. The Horizontal stem, round bow variety. **About Uncirculated-50.** An exceptional specimen of this popular variety. The obverse is a nice olive brown, the color fairly even across. The reverse is a mix of light and darker olive brown. There is one tiny planchet pit to the right of Y in LIBERTY, otherwise the fields are free from handling or keg marks. The edge, similarly, is virtually flawless. Both sides are sharply struck, with pleasing detail in Liberty's hair strands and the wreath's berries at top. Struck from the later state of the reverse, with all the cracks described by Dr. Sheldon clearly present. This piece is near the **Condition Census** for the variety and will be a prize in its new owner's collection. ***(SEE COLOR PLATE)***

1007 **1794** Head of '95. S.46. About Good-3; **1795** Plain edge. S.78. About Good-3. The first coin is a deep glossy black, with an ancient scratch or two visible, and a die crack to bust right of 4; the second is a pleasing reddish-tan. **2** pieces.

Lot No. 1008

Rarity 4 for these states. Although the obverse cud developed first, the reverse seems to have broken before the obverse.

1014 **1807** Large fraction. S.275. Fine-12 or a trifle better. Some mild porosity, dark brown, a well struck and detailed example of this scarce variety.

1092 **1794** Overton 101a. Very Fine. First star pierces curl, point of star 15 touches bust. This reverse is the only one of this first year's coinage to bear 21 berries in wreath. Radial die cracks link left rim to wreath left of STATES, a finer crack through F in OF links wreath to last S. A few adjustment marks appear in hair, at last three stars. A tiny rim bruise or two may be found with effort. A very satisfying example of the historic Flowing Hair design, well centered and boldly detailed.

EXCESSIVELY RARE 1796 15-STAR HALF DOLLAR

Lot No. 1093
(Enlarged)

1093 **1796** 15 Stars. O.101 **(R-5). Very Fine.** Silvery Liberty is framed in smooth, slightly iridescent sea-green on russet on the obverse; the reverse more generally toned in these autumnal hues. Boldly detailed, stars and date especially sharp. Al Overton wrote "All 1796 Half Dollars are rare or very rare." Apparently Mint records of 3,915 pieces included both 1796 and 1797-dated coins of all varieties. These are in fact the rarest circulating Half Dollars in all of America's two-century coinage history. ***(SEE COLOR PLATE)***

1094 **1801** O.101. Fine, gray fields darker high points. Typical, late reverse state.

Attractive, bright lustre around the peripheries of both sides. Sharply struck on Liberty's bodice and the eagle's breast feathers; Liberty's hair over temple soft, as usual. A couple of trivial marks on obverse and reverse rim, mentioned just for the sake of precision. Otherwise, **possibly the Finest Known** according to the published **Condition Census** for the variety. A coin with wonderful eye appeal. From the later die states, equivalent to the "110a" attribution in some areas, not in others, but later than "O.110". Full edge device. ***(SEE COLOR PLATE)***

LOVELY 1836 REEDED EDGE HALF DOLLAR

A Possible Proof Striking

Lot No. 1108
(Enlarged)

1108 **1836 Reeded edge. Brilliant Uncirculated, fully prooflike** with glittering surfaces and a sharply squared off obverse rim. Fully struck on the obverse and perfectly centered. A few light marks and hairlines from an old, careless handling. Both sides are toned in lovely gray and iridescent pink and blue. Tops of 50 CENTS and AMERICA struck up, obverse not off-center as often seen on the rare business strikes.

A Possible Proof Striking: The proof status of 1836 Reeded Edge Half Dollars is unsettled and still controversial. Garrett:329, for example, catalogues in 1979 as a proof was challenged in Auction '80. This present piece bears all the presently accepted diagnostics for the proofs: clear doubling on the bases of 50 CEN, short reverse break from rim into fields to right of finals S in STATES, broad obverse rim but rounded and narrower reverse rim. These characteristics are shared by the Garrett coin, as well as the piece in the ANS, the Norman Stack Type Set coin, and Auction '80, lot 742. The softness barely visible in the eagle's right wing can also be seen on the Garrett and Superior/Heifetz:3704 coins and should not be a cause for alarm here. The state of the reverse die shows that this piece, the Heifetz coin, and the Garrett and Auction '80 coins were all struck within a short time of each other. While they all show the short break down from rim beside final S of STATES, none have the cud that later formed on the left of that break or the die "dots" (rust?) that grew around ES of that word. Finally, this piece weighs 207.8 grains, equivalent to the standard of 1836 and not the lower weight of 1837.

In conclusion, this piece exhibits all of the characteristics expected from a proof struck in a close collar, was coined to the 1836 weight standard, was struck from the earliest state of the reverse die, and looks like other specimens that have been called proofs. We suggest that the buyer make his own decision based on the evidence, which is suggestive of proof status. ***(SEE COLOR PLATE)***

The 1836 Reeded Edge Half Dollars were first struck on November 8 of that year. Mint Director Robert M. Patterson sent 10 "specimens" to Secretary of the Treasury Levi Woodbury as the first executed. These may have been the proofs. The new design, by Christian Gobrecht, was struck in a close collar which imparted reeding to the edge as the planchet was struck between the dies. Most 1836 Reeded Edge Halves show irregular reeding which looks like a combination of fine and coarse grain. This is really just the result of the failure of the collar to close very tightly around the edge and should not surprise anyone since the Mint was still learning how to use the new collars.

U. S. SILVER DOLLARS

Lot No. 1128
(Enlarged)

1128 **1795** Bolender 12a **(R-7). Very Fine.** Lowest curl pierces point of star 1, LIB far apart on this six-curl obverse. Three leaves under each wing, 13 berries in reverse wreath. Very late die state, obverse cracked from below ear through 7 to rim, at this stage dividing the obverse into two distinct planes. It is unlikely that many more coins could have been struck from dies in this condition. M.H. Bolender wrote that he had only seen one specimen during his long career. Moderate wear, three trivial obverse edge dings and one reverse nick at 12 o'clock are the only demerits this sharply struck and pleasing coin possesses. Light gold-gray toning, silvery reliefs add to this early Dollar's appeal.

NEAR GEM MINT STATE 1795 SMALL EAGLE SILVER DOLLAR

Lot No. 1129
(Enlarged)

1129 **1795 Small Eagle.** B.14. **Very Choice Brilliant Uncirculated** with all the visual qualities of a full blazing gem. This obverse is the first Draped Bust, set far to the left in the field. The reverse shows the Small Eagle on clouds, but smaller than the eagle on earlier Flowing Hair Dollars of 1794-1795. The olive branch bears seven berries. Essentially full mint bloom, meticulous centering and needle-sharp strike with unusually square edges place this amazing Dollar high among the nicest known examples of this date and variety. Here is an early Dollar that shows just how beautiful the coinage was intended to be despite the problems faced by the fledging Philadelphia Mint. Comparable or superior to the Garrett and Amon Carter example and of true museum quality! ***(SEE COLOR PLATE)***

DISTINCTIVE 1796 BOLENDER 2 SILVER DOLLAR

Lot No. 1130
(Enlarged)

1130 **1796** Bolender 2. Small date, letters. **Choice Extremely Fine.** Light, trouble-free wear, with a wealth of finer detail on the eagle and Liberty's locks. This variety is among the most distinctive, its reverse presenting very widely spaced words leaving much smooth and harmonious field around the eagle and wreath. As Breen noted, it is "usually in low grades," emphatically not the case for this beautifully centered example. ***(SEE COLOR PLATE)***

AMAZING 1796 BOLENDER 3 SILVER DOLLAR

Lot No. 1131
(Enlarged)

1131 **1796** Triple leaf under wing, large letters. B.3. **About Uncirculated and choice.** An amazingly sharp coin with frosty silver reliefs. Delicate russet and blue-black toning form a halo-like circle around Liberty and the small eagle. Wonderful detail and high sharp rims distinguish this example of another major type for this date. Dramatic silvery 'flash' for additional visual impact. ***(SEE COLOR PLATE)***

HANDSOME 1796 BOLENDER 5 SILVER DOLLAR

Lot No. 1132
(Enlarged)

1132 **1796** Large date, small letters. B.5. **About Uncirculated and choice,** very close to full Mint State. Tall numbers in the date, and a bold die blob at the top of I in AMERICA identify this key variety. Pleasing clear iridescent gold around the stars and legend; a hint of pale blue in the smooth, nearly mark-free fields. A richly beautiful early Dollar. ***(SEE COLOR PLATE)***

Lot No. 1133
(Enlarged)

1133 **1798** B.8. **Extremely Fine,** even pale gray in color. Immediately recognizable variety, with a long "bar" flaw in left obverse field.

GEM MINT STATE 1799 SILVER DOLLAR

Lot No. 1134
(Enlarged)

1134 **1799** B.5a (R-3). **Gem Brilliant Uncirculated.** Star 1 is small, spindly, right stars far from curl and L, left stars closer to Y and bust. This reverse shows missing left top on U in UNITED, die cracks through UNITED STATES. An incredible strike, fully detailed and well centered joining with pristine glowing silver surfaces to make this a Dollar nearly as perfect as when it was removed from the coining press of the first U.S. Mint. Delightful cartwheel lustre and exceptional "flash" for such an early date. A coin destined to be the centerpiece of some carefully chosen collection of the finest available early American silver coins, a true aristocrat among early Silver Dollars. ***(SEE COLOR PLATE)***

ATTRACTIVE 1800 SILVER DOLLAR

Lot No. 1135
(Enlarged)

1135 **1800** B.10a. **Brilliant Uncirculated,** with lovely, original, deep gray, pale blue, and delicate golden toning. Pleasing mint lustre visible around the obverse stars and across the reverse surface. Sharply struck, with Liberty's curls fully defined and the eagle's breast and neck feathers crisp and outlined. Edge device fully formed and complete. Struck from the later state of the reverse, the breaks of B.10a present with additional ones around and through the tops of UNITED; die rust spots between right wing tip and first S. A lovely coin, which will be the centerpiece of its new owner's collection. ***(SEE COLOR PLATE)***

The strike on all the coins is far sharper than is seen on the Special Mint Sets. We suspect that these were struck as an experiment to determine the sort of finish the Mint would use from 1965 to 1967. **8** pieces.

1233 **1925'S' Cent.** Choice Brilliant Uncirculated, red and brown. ANACS MS 64 RB; **1883 No Cents Nickel.** Very Choice Brilliant Uncirculated. ANACS MS 65; **1921 Dime.** Extremely Fine, cleaned. **3** pieces.

U. S. GOLD COINS

U. S. GOLD DOLLARS

GEM MINT STATE 1849'D' GOLD DOLLAR

Lot No. 1237
(Enlarged)

1237 **1849'D' Gem Brilliant Uncirculated.** One of the finest existing Gold Dollars from a Dahlonega mintage of only 21,588 pieces. Fully prooflike glittering fields contrast with diamond-sharp stars, letters and devices to create a quality utterly unlike the normally crude branch mint coinage. Only the denticles show any degree of striking weakness, the rest of the coin is of truly Philadelphia Mint quality. Finding another coin of equal quality would be a task; to find a finer example would probably be impossible. ***(SEE COLOR PLATE)***

1238 **1852'O'** Choice About Uncirculated, lustrous. Low mintage issue, *only 140,000 struck*. Light hairlines.

1239 **1854 Type II.** Very Fine, slightly bent.

EXCEPTIONAL 1856'D' GOLD DOLLAR

Lot No. 1240
(Enlarged)

1240 **1856'D'** About Uncirculated and nearly choice. As pleasing an example of a Dahlonega Dollar with a mintage of only 1,460 as one could wish for. A short scratch left of denomination, planchet chip left of mintmark. Overall miles ahead of the typically crude branch mint work of the time. The dies were slightly rusted from the humid Georgia climate and clashed to add to the character of this splendid coin. Certainly one of the finest examples of this **rare date** available today. ***(SEE COLOR PLATE)***

1241 **1858** Very Fine, deep toning, several marks; **1862** Brilliant Uncirculated, lightly toned. Obverse rim nicked. **2** pieces.

OUTSTANDING 1861'D' "CONFEDERATE" GOLD DOLLAR

Lot No. 1242
(Enlarged)

1242 **1861'D' About Uncirculated and fully choice.** One of a very small number struck at Dahlonega after Georgia's secession and the seizure of the Mint by the Confederacy. Strike is engagingly crude as with all known, but the coin displays full mint frost. Rim weak over ED, but UNITED is unusually full. Reverse rim is very low and both sides have denticles missing over areas of their circumference. Some letters and devices are "outlined" as often seen; David Akers call this "the 'king' of the gold dollar series." This glittering piece would place near the top of any **Condition Census** for this historic Dahlonega date. ***(SEE COLOR PLATE)***

Purchased from "BB" in the late 1940's.

Lot No. 1249

Purchased from B. Max Mehl in 1945.

CHOICE TYPE COLLECTION OF EARLY $2.50 GOLD

SUPERB 1796 NO STARS QUARTER EAGLE

Lot No. 1257
(Enlarged)

1257 **1796 No Stars.** Breen 1. **Choice About Uncirculated.** Remarkably sharp strike, LIBERTY shows E more boldly impressed than either the Garrett or Norweb coins. Fine die cracks at L, B, E. Distinctly prooflike without any serious marks, lowest lock of Liberty's hair unbroken in this die state. This half-year obverse design was engraver Robert Scot's concept to avoid cluttering the field with the usual stars. *Only 963 are believed to have been struck.* This magnificent coin would occupy a high position in any **Condition Census** of this key type and date. ***(SEE COLOR PLATE)***

SPLENDID 14 STARS 1804 QUARTER EAGLE

Lot No. 1258
(Enlarged)

1258 **1804 14 Stars.** Breen 1. Extremely Fine. Ancient scratches behind head, some adjustment marks at left rim. This reverse die with 14 stars above the Heraldic Eagle was also used for the Silver Dime coinage. Bold strike, a few tiny contact ties in fields. An exceptionally high quality early Quarter Eagle coin of solid rarity. ***(SEE COLOR PLATE)***

DRAMATIC HIGH GRADE 1808 CAPPED BUST QUARTER EAGLE

Lot No. 1259
(Enlarged)

1259 **1808 Capped Bust. About Uncirculated,** close to choice. Adjustment marks below date, otherwise mark-free reflective gold. *Only 2,710 struck of this one year type,* dies engraved by John Reich. Estimates on the number of survivors existing today in all grades vary from 35 to possibly 50 pieces. Indispensable for any type or date collection, a coin that would be hard to match, almost impossible to top for sheer rarity and quality. ***(SEE COLOR PLATE)***

MINT STATE AND PROOFLIKE 1829 QUARTER EAGLE

Lot No. 1260
(Enlarged)

1260 **1829 Brilliant Uncirculated.** A needle sharp strike with prooflike brilliance of almost startling intensity. A few minuscule contact points can be found with effort, but this impressive coin is one of the finest survivors of a *mintage of only 3,403 pieces.* Most specimens do no exceed Extremely Fine. Another ideal coin for a most special collection. ***(SEE COLOR PLATE)***

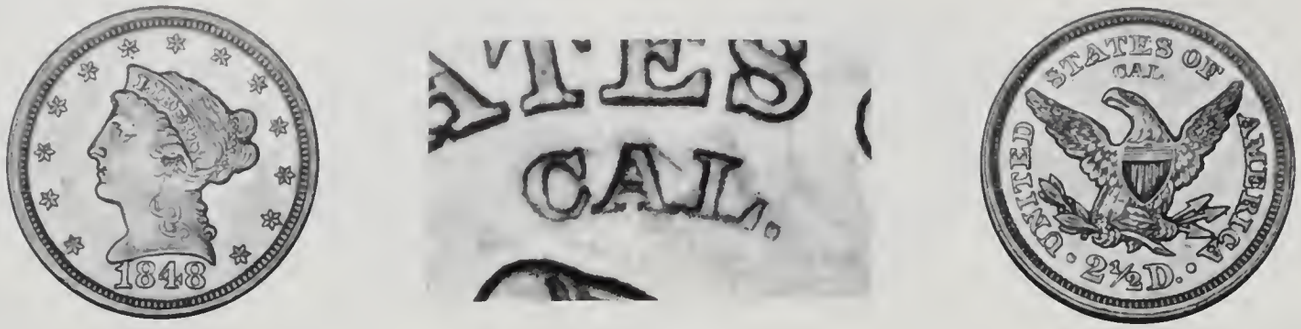
This modified John Reich design is noteworthy for its closed collar strike with high, precise raised rims of very modern appearance. It was struck in only six years.

CHOICE MINT STATE 1838 CLASSIC HEAD QUARTER EAGLE

Lot No. 1261
(Enlarged)

1261 **1838.** Breen 1. **Choice Brilliant Uncirculated.** Reverse die of the preceding year with the first T of STATES very low. This obverse is a modified Classic Head reminding the viewer of the Booby head of Large Cent fame, set within a wide raised rim. **Very Rare** in Mint State, and rarer still this choice. Appealing paler gold, fields of nearly prooflike reflectivity. Delicately frosted reliefs add to this coin's extraordinary beauty. ***(SEE COLOR PLATE)***

LEGENDARY 1848 CAL. QUARTER EAGLE



Lot No. 1262
(Enlarged)

1262 **1848 CAL. Brilliant Uncirculated.** *One of only 1,389 struck.* This coin shows a few faint hairlines, and a tiny scratch before Liberty's lips. The care used in striking this historic coin can been seen in the raised die polish lines in the fields and the faint doubling of letters in the reverse legend, showing a least two strikes to bring up maximum detail. Despite their careful preparation, most were apparently released casually into normal circulation and a majority of the survivors today are well circulated. This pale yellow coin with a hint of green from the western gold combines rarity with a rich historical background and powerful eye appear in a single package. ***(SEE COLOR PLATE)***

The 1848 CAL. pieces were struck from a shipment of 280 ounces, 15 pennyweights and 9 grains of native California gold shipped East by Col. Richard Barnes Mason to Secretary of War W.L. Marcy in Washington D.C. Lt. Lucien Loeser carried the gold in a tea caddy by ship from Monterrey, California to Payta, Peru, thence by British steamer to Panama. He traveled across the isthmus and proceeded by ship to Jamaica and then New Orleans. Arriving at last in Washington D.C., Loeser was greeted as a conquering hero. Secretary Marcy requested the Philadelphia Mint to strike two medals ordered by Congress to Mexican War Heroes, and the rest of the ore was to be used for Quarter Eagles, then the smallest gold denomination. These small coins would be given wide distribution to publicize the value of the lands just conquered from Mexico in what had been an unpopular war of expansion. In this President Polk heartily agreed. Some numismatists have argued that the 1848 CAL. Quarter Eagle was the nation's first commemorative!

An Unappreciated Rarity

Lot No. 1309 (Enlarged)

Small nick in field between stars 4 and 5, other signs of handling commensurate with the grade. Light copper toning areas around the right obverse rim. **An unappreciated rarity:** in the last three years of public auction records only three specimens have been sold, one each year! This is a **very rare** coin above Very Fine, as Akers noted. According to the January, 1993 *PCGS Population Reports* that service has graded only three pieces higher than Very Fine. This specimen appears to be nicer than the Eliasberg coin; there was none in the celebrated Norweb sale (1987), another measure of its rarity. ***(SEE COLOR PLATE)***

AN IMPORTANT VARIETY COLLECTION OF EARLY UNITED STATES EAGLES ($10.00 GOLD)

The following lots represent an important collection of early United States Eagles by types and major varieties. Early Ten Dollar Gold pieces are among the most "aristocratic" of all Federal issues. They are eagerly sought after because of the attractiveness of their designs, the rarity implicit in their low mintages, and the challenge of some of the major varieties.

This collection includes all of the varieties listed in the ***Guidebook*** *and a few that are not but probably should be. The three highlights of this present offering are a near gem 1795 13 Leaves, a wonderful specimen that was possibly a presentation piece; the rarest of all Eagles, the 1795 9 Leaves variety, one of about ten known; and the extremely rare 1798/7 with obverse stars arranged seven left, six right, one of only 13 believed to survive. Other highlights include the rare 1799 Small Eagle reverse type; the 1798/7 with reverse stars nine left, four right; and attractive examples of the 1803 with large and small reverse stars.*

We are pleased to offer this collection to our clientele, who, we are sure, will take full advantage of such a rare opportunity. A collection like this is very infrequently sold and we are happy to present it here for your bidding competition.

VERY CHOICE MINT STATE 1795 EAGLE

Thirteen Leaves

Possible Presentation Strike

Lot No. 1341
(Enlarged)

1341 **1795** Breen 1-A. Ency.6830. **Thirteen Leaves. Very Choice Brilliant Uncirculated, nearly gem quality. Certainly among the Finest Known, a possible presentation strike.** Lovely, pale yellow gold in color. Mint lustre cartwheels on both sides, more pronounced on the reverse. Very sharply struck, with Liberty's curls separate and well-defined, her eye clear and sharp. Feather details on the eagle's breast all visible, even the highest ones which are almost never struck-up. All leaves on branch show internal design details as do most of those in the wreath. Full borders of denticles around on both sides. Struck from the very early states of the dies, as expected, with "lines" at points of some branch leaves still sharp. **Extremely rare** in this outstanding state of preservation: Breen noted (1988) that ". . .possibly 4 or 5 qualify as presentation strikings. . .," while Akers wrote "A small number of extremely choice examples of this date are known, pieces that were obviously carefully saved as gifts or mementos from the very day they were struck." This specimen is nicer than the piece in the Smithsonian said to have "prooflike surface" and to have been saved by Adam Eckfeldt as one of the first struck. ***(SEE COLOR PLATE)***

MINT STATE 1795 EAGLE

Lot No. 1342
(Enlarged)

1342 **1795** B.4-B. Thirteen Leaves. **Brilliant Uncirculated/Choice Brilliant Uncirculated.** Medium yellow gold in the fields, central devices a shade deeper in color. Mint lustre cartwheels fully present on both sides. Well struck. Liberty's hair strands are sharp everywhere save the very highest point. Very faint adjustment marks on both sides, but these are visible only with the aid of a glass. The reverse is particularly lustrous and choice. Later die states, lapped, die lump between OF AMERICA heavier now. ***(SEE COLOR PLATE)***

VERY RARE 1795 EAGLE

9 Leaves on Branch

"The Rarest of all Eagles"

Lot No. 1343
(Enlarged)

1343 **1795** B.4-C, Ency.6831. **Nine Leaves. Choice About Uncirculated. Very rare:** no more than 10 specimens have been identified. David Akers wrote about the Nine Leaves variety that "This nine leaves variety is a major rarity (in my opinion the rarest of all Eagles) and probably less than ten specimens are known." Writing in the *ANA Centennial Anthology* noted numismatic researcher Carl W.A. Carlson tracked only 10 different specimens. This present piece is nicer than 4 of those, based upon the recorded past catalogue grades. On this coin mint lustre can been seen around some of the protected areas. The coin's color is a medium yellow gold. The centers are soft, as usually seen on the type, and there are the typical number of light planchet flaws expected from the variety (Breen wrote that these are "usually with flan clips"). Light adjustment marks can been seen in the highest waves of Liberty's hair. Typical reverse state, with a mature break through top of first T in STATES. As a further indication of the rarity of this true type we note that both the Eliasberg and Norweb Collection Sales lacked an example. Breen's *Encyclopedia* listed only seven specimens; the roster in Auction '90 enumerated 8. Carlson's history appears to be the most accurate to date. ***(SEE COLOR PLATE)***

With a projected total mintage of only 5,583, 1795 Eagles one has to wonder why the Mint required 3 obverses and 3 reverse dies for the coinage. None of the recorded dies appears to have been so broken or worn as to require replacement. One also has to ask why so few Nine Leaves coins survive compared to the other 1795 varieties, and perhaps equal in importance, why the Nine Leaf reverse was cut at all!

MINT STATE 1796 EAGLE

Lot No. 1344
(Enlarged)

1344 **1796** B.1-A. **Brilliant Uncirculated,** with lustre in the protected areas of both sides and across parts of the reverse surface. Very light traces of friction on the high points. Nice and attractive deep yellow gold in color. Free from annoying adjustment marks. **A rare date,** *only 4,146 pieces believed struck* from a single pair of dies. ***(SEE COLOR PLATE)***

RARE 1797 EAGLE
Small Eagle Reverse

Lot No. 1345
(Enlarged)

1345 **1797 Small Eagle.** B.1-A. **Choice About Uncirculated. The rarest date of the type,** *only 3,615 are believed to have been struck* (the actual mintage may have been even smaller). Attractive mint lustre can be seen in the protected areas of both sides, and on portions of the reverse surface. The piece is a nice, even medium yellow gold in color. A small, feather-like scuff mark is noted in the left obverse field. David Akers remarked concerning this date that ". . .the 1797 Small Eagle is nearly twice as rare as the 1796 and almost four times as rare as the 1795." Only one variety struck with the Small Eagle reverse. ***(SEE COLOR PLATE)***

MINT STATE 1797 HERALDIC EAGLE $10.00 GOLD
The Rarer Large Eagle Variety

Lot No. 1346
(Enlarged)

1346 **1797 Heraldic Eagle.** B.2-C. **Brilliant Uncirculated. The rarer variety** with curving stem on reverse, called **R-7** in Breen's monograph on the series. Lovely mint lustre wreaths both sides and can be seen on major portions of both surfaces. Attractive, rich yellow gold in color. Cluster of short hairlines above upper left shield tip. Typical die states, obverse broken through last numeral of date. The reverse is distinctive, with a long necked eagle and slightly curving stem. First year of issue of the Heraldic Eagle type, a rarer date than 1799, 1801 and 1803. ***(SEE COLOR PLATE)***

VERY RARE 1798/7 EAGLE
Stars 9 x 4

Lot No. 1347
(Enlarged)

1347 **1798/7 Stars 9x4.** B.1-A. **Choice About Uncirculated, among the Finest Known. An outstanding example of a rare issue.** One of about 900 struck. It is believed that only about 20 survive today! This specimen has nice mint lustre in the protected areas of both sides and across large portions of the reverse. The color is a pleasing, medium yellow gold. The overdate is bold (all 1798 Eagles are 1798/7 overdates) and the obverse break from rim through top of cap is clear. The arrangement of the stars on obverse appears lop-sided and was probably the reason for its replacement by the more balanced 7x6 arrangement (see next lot). ***(SEE COLOR PLATE)***

EXTREMELY RARE 1798/7 EAGLE
Stars 7 x 6
Among the Finest Known

Lot No. 1348
(Enlarged)

1348 **1798/7 Stars 7x6.** B.2-A. **About Uncirculated. Extremely rare, it is believed that only 13 examples survive today.** David Akers wrote of this variety that "With the exception of the extremely rare and unpublished 1795 Nine Leaves Eagle, the 1798/7, 7x6 Stars Eagle is by far the rarest issue from 1795-1804." This example has traces of lustre on the obverse and much more ample areas of lustre on the reverse. This specimen can be "hallmarked" by several semi-circular lint marks around the obverse stars. The eagle's breast feathers are soft, as expected, but Liberty's hair strands are struck up. This specimen has nicer eye appeal than the Eliasberg coin, called "one of the finest known," which was blotchy on the reverse. ***(SEE COLOR PLATE)***

MINT STATE 1799 EAGLE
Small Obverse Stars

Lot No. 1349
(Enlarged)

1349 **1799 Small Obverse Stars.** B.4-E. **The "Irregular Date" variety. Brilliant Uncirculated.** A lustrous specimen, well struck in the centers on both sides, with full hair and feather detail showing. A short section of hairlines in the left obverse field will "hallmark" this specimen. ***(SEE COLOR PLATE)***

(Enlarged)

1351 **1800** B.1-A. **Brilliant Uncirculated,** a frosty specimen with some "flash" around the obverse stars. Surfaces a little "baggy" but not at all unpleasing. Sharply struck, with lovely details deep in the recesses of Liberty's curls and knife sharp separations in the eagle's breast feathers. ***(SEE COLOR PLATE)***

MINT STATE 1801 EAGLE

Lot No. 1352
(Enlarged)

1352 **1801** B.2-B. **Brilliant Uncirculated.** An attractive and lustrous example with nice yellow gold color. (Enlarged)

1353 **1803 Small Reverse Stars.** B.1-A. **Brilliant Uncirculated,** with lovely medium yellow gold color and mint lustre around the reverse rim. Some light cabinet friction and short adjustment marks on obverse near rim. Centers sharply struck. ***(SEE COLOR PLATE)***

1483 **1907 Roman Numerals. Flat Edge. High Relief.** Extremely Fine. Lightly cleaned with a few scattered marks. Even bases on M's in edge lettering. Date close to drapery, star central over Y identifies this obverse variety. A pleasing satiny deep gold.

Lot No. 1484

1484 **1907 Arabic Numerals. Choice Brilliant Uncirculated.** Rich light gold mint frosty, one faint obverse bag scratch. Cartwheel lustre gives this coin unusual appeal.

1485 **1907 Arabic Numerals.** Another. **Choice Brilliant Uncirculated.** Delightful satiny gold surfaces, a single obverse mark worth noting, reverse of near gem quality.

1486 **1908 No Motto. Brilliant Uncirculated.** Short rays obverse, deep yellow gold with a few light bag marks.

1487 **1908'D' Motto. Brilliant Uncirculated,** nearly choice. A few marks but deep gold with "two tone" frosty and bright obverse.

Lot No. 1488

1488 **1909/8 Choice Brilliant Uncirculated.** An exceptional example of this scarce overdate with 9 closed by loop of underlying 8. Satiny surfaces, light gold among rays, deeper yellow above. A very desirable specimen of the last U.S. gold overdate.

1489 **1909'D'** Choice About Uncirculated. Virtually full Mint State and decidedly rare thus. Faintest hint of rub on leg, bold satiny glow.

1490 **1910 Brilliant Uncirculated.** Very frosty with minimal contact tics, bold cartwheel reflectivity.

Lot No. 1491

1491 **1911'D'** Double 'D'. **Brilliant Uncirculated.** Denver mintmark boldly double-punched with first impression to the right of the final letter. Surfaces show orange peel texture, satisfying frosty lustre. This variety is called "Rare" by Breen and was not listed by Akers.

1492 **1912 Brilliant Uncirculated.** Light bagging, frosty pale gold lustre, a scarcer date.

Lot No. 1493

1493 **1913'S' Brilliant Uncirculated.** Qualities of choice, but lightly marked as nearly all of this San Francisco date.

1494 **1914 Brilliant Uncirculated.** Normal bag marks, hints of orange peel surfaces. A somewhat elusive early date.

1496 **1915'S' Brilliant Uncirculated.** A few light marks, deeply lustrous yellow gold with well developed cartwheel.

1497 **1916'S' Brilliant Uncirculated.** Deep lustrous gold, reverse shows unusual bold clash mark, serpentine outline of eagle's head and wing caused by 90-degree shift between blows. An exceptional coin for this last series of circulating U.S. gold coins.

OUTSTANDING
MINT STATE 1927'S' DOUBLE EAGLE

Lot No. 1509

1509 **1927'S' Brilliant Uncirculated.** A faint tic or two from Choice. An especially attractive example of this famed San Francisco date. Akers wrote "Some specimens have very rounded or beveled rims and many show evidence of die bulging or die deterioration near the borders. Die breaks are common and on some specimens they are very prominent." This coin shows a die crack through IBE and a very bold engraver's die line slanting right from Y in TWENTY. Reverse rim is indeed "very rounded," and the coin overall is one of the best of the estimated 60 known in Mint State. ***(SEE COLOR PLATE)***

1510 **1928 Choice Brilliant Uncirculated.** Deep golden lustre and delightfully free of distracting marks.

Lot No. 1511

1511 **1929 Brilliant Uncirculated** and close to Choice. A richly lustrous coin combining beauty with rarity and dramatic effect. Here is a thoroughly appealing example of a most eagerly sought-after date in the Saint-Gaudens series.

PIONEER GOLD COINS

TEMPLETON REID $2.50 GOLD

A Legendary Pedigree

Lot No. 1512
(Enlarged)

1512 **$2.50 1830. Templeton Reid. Bold Very Fine.** GEORGIA GOLD in solid circle with date at center, all in long-toothed border. Struck slightly off-center. Reverse: T.REID ASSAYER, 2.50. Templeton Reid was America's first coiner of pioneer gold. His career began with great promise but the coinage was denounced in regional newspapers as overvalued, due to his lack of precise knowledge of the amount or natural impurities in the Georgia ore. After the newspaper controversy most of the coinage was melted, leaving only a handful of $2.50 pieces and fewer $5.00 and $10.00 pieces. This is one of the tiny number of Templeton Reid coins still accessible to today's numismatists, a coin of outstanding rarity, beauty and historical importance. ***(SEE COLOR PLATE)***

This coin was part of the Capt. Andrew Zabriskie collection, later owned by Col. James W. Ellsworth. In 1923 it was purchased by John Work Garrett and was lot 504 in the November 1979 Garrett Collection Sale. Its last public appearance was in Stack's Raymond J. Wayman Collection Sale of September 1981, lot 410.

EXTREMELY RARE TEMPLETON REID $5 GOLD

The Nygren-Garrett-1987 ANA Exhibition Specimen

Lot No. 1513
(Enlarged)

1513 **1830 Templeton Reid Half Eagle ($5.00 Gold). Extremely Fine.** 123.2 gns. Well struck and centered. Small edge nick obverse at 7:30. Mint lustre visible within and around some letters on both sides. **Extremely rare:** about 10 specimens may survive today, of which two are permanently impounded in the National Numismatic Collection at the Smithsonian Institution. A third is in the E. Willis DuPont Collection and is unlikely to cross the auction block. This leaves just seven, or so, specimens in private hands. This piece is the Henry Chapman/Arthur C. Nygren Collection sale coin (April 29, 1924, lot 19), which Chapman described as "AU. Slight dent on the edge. Of the highest rarity, probably only three examples known. A gem and I believe the finest example of this coin offered for public competition." At the time of the Garrett sale four examples were noted. The late Walter Breen enumerated 10, with one possible duplication. The listing in Dexter Seymour's *The 1830 Coinage of Templeton Reid* (ANSMN 22, 1977) listed only eight different examples, this being his number 11 (in the sequential list of all Templeton Reid coins of all denominations known to him).

The Templeton Reid Half Eagle is much rarer than the Quarter Eagle and only slightly less rare than the 1830 dated Eagle. Reid struck his coins in Georgia gold only from late July to mid-October, 1830. Most pieces circulated in and around Gainesville, Georgia. A very small number made their way to the Philadelphia Mint for assay and exchange but even in the 1840's and 1850's Reid's coins were considered rare and Adam Eckfeldt saved a few for the nascent Mint Cabinet. Seymour conjectured that only 300 Half Eagles were struck in all. We note that the celebrated Clifford Collection sale (1982) did not include a specimen. ***(SEE COLOR PLATE)***

Of the ten, or so, in private and public hands Stack's has handled three (this; the Lilly coin; and the Baldwin-W.P. Brown—Hidden specimen), more than any other numismatic auction firm.

EXCEPTIONAL
AUGUSTUS HUMBERT $50.00 SLUG

Reeded Edge .887 Thous.

Lot No. 1514
(Enlarged)

1514 **$50.00 1851 Augustus Humbert U.S. Assayer. Reeded Edge. Bold Extremely Fine.** Eagle and shield, legend at edge: AUGUSTUS HUMBERT UNITED STATES ASSAYER OF GOLD CALIFORNIA. FIFTY DOLLS. Reverse: Fine engine-turned design with small "target" center with no "50" at center. This coin shows the pale green-gold of native California ore naturally alloyed with silver and bears fewer marks than most survivors. Its surfaces are a superb, smooth gold, far superior to most of these large, soft gold pieces encountered today. Here is a pioneer gold coin sure to appeal to the most demanding buyer. ***(SEE COLOR PLATE)***

AN EXCITING HOARD OF

MORGAN SILVER DOLLARS

To call the following lots of Morgan Silver Dollars "exciting" is surely a great understatement. For an untouched hoard of premium coins is a rare happening, making this offering a very special numismatic event. Virtually all of these Dollars were acquired by Dr. Koelle in the years before his death in 1941. They then lay untouched in bank vaults for over half a century, some gaining delicate toning, others retaining their mint fresh whiteness, some with lovely satiny lustre, others with breath-taking prooflike surfaces. That many of the dates are from the New Orleans Mint is, of course, to be expected, since Mrs. Shirley Cabibi is, and the late Drs. J. Marcus Koelle and Carlo Cabibi were, all residents of New Orleans.

To give all the participants in this sale the greatest opportunity to obtain examples of these remarkable Dollars, we have provided single coin lots of the very choicest coins, multiple coin lots, roll and mutiple roll lots. We do not expect to see another such wonderfull offering to appear for many years.
